Sánchez and District E-13 Plan Fishing Trips for Area Youth

BOSTON-- State Representative Jeffrey Sánchez and District E-13 Community Service Office formed a collaborative partnership to implement four fishing trips to Jamaica Pond throughout the month of August 2011 for local area youth. Youth from South Street/ Forest Hills, Egleston Square, and some parts of Dorchester and Roxbury were recruited to participate in these fishing trips which occurred on August 3rd, August 10th, August 16th and August 23rd.

“I would like thank Officers Rafael Rodriguez, Antonette Ramsay, and Williams Jones for working with me to make these four fishing trips happen for our youth. Positive interactions between law enforcement officers and the youth are always a great sight to see,” states State Representative Jeffrey Sánchez.

District E-13 Youth Officer Rafael Rodriguez shares the same positive sentiments regarding this collaborative partnership, “It was a great to participate on the various fishing trip with the youth. The collaboration between District E- 13 and State Representative Jeffrey Sánchez made it possible to for us to work together for a common cause. An essential of component of community policing is having the patience to work things through with others. As with fishing, you have to be patience or else you may not catch any fish.”
